

Qualsafe Level 2 Award in Infection Prevention and Control (RQF)

½ day course

Ofqual regulated

Refresher training recommended every 3 years

Course Overview

The **Qualsafe Level 2 Award in Infection Prevention and Control (RQF)** is a regulated and nationally recognised qualification that has been specifically designed for those with a responsibility to help stop the spread of infection within their job role, such as health care assistants, health care workers or social care workers.

During this half-day course, candidates will develop an understanding of infection prevention and control, including: roles and responsibilities, personal hygiene, and ways to minimise the risk of infection in a health and care setting.

What's Covered?

- Importance of infection prevention and control
- Roles and responsibilities
- Minimising the risk of infection:
 - The importance of risk assessments
 - Potential risks of infection within the workplace
- Personal protective equipment (PPE)
- Personal hygiene
- Hand washing procedures
